PROFESSIONAL SUMMARY

Software Developer skilled in React, Next.js, JavaScript, Python, and Generative AI integrations (LangChain, Gemini API). Experienced in building modern frontend interfaces, developing REST APIs, and deploying full-stack web applications on Vercel and Streamlit Cloud. Currently pursuing an MCA in Cybersecurity while seeking entry-level Software Developer or Full-Stack Engineer roles.

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL, HTML5, CSS3
Frontend & Web	React, Next.js, Vite, Tailwind CSS, REST APIs
Backend & AI Frameworks	FastAPI, LangChain, Google Gemini API, OpenAI API
Developer Tools	Git, GitHub, Vercel, Streamlit Cloud, AntiGravity, Claude Code, VS Code

PROJECTS

ResuFlex AI | Python, LangChain, Google Gemini, Streamlit resuflex-ai.vercel.app

- Developed an AI-driven resume optimization application that analyzes resume content and provides structured ATS match scoring against targeted job descriptions.
- Engineered prompt and parser pipelines using Google Gemini API and LangChain to identify technical skill gaps and recommend targeted phrasing enhancements.
- Deployed an interactive web interface on Streamlit Cloud with secure API key environment management and input validation.

JobFit AI – Resume Analyzer | Python, LangChain, Google Gemini, Streamlit jobfitapp.streamlit.app

- Built a full-stack Generative AI tool that evaluates resumes against job listings using semantic embedding evaluation alongside ATS keyword density checks.
- Configured custom prompt workflows with LangChain to generate tailored actionable feedback reports for job applicants.
- Published the app to Streamlit Cloud, setting up robust secret management and production error handling.

TaskFlow – Task Management App | React, JavaScript, Vite, Tailwind CSS taskflow-pink-six.vercel.app

- Created a modern responsive task management system featuring dynamic search, real-time status filtering, and task lifecycle tracking.
- Implemented persistent dark/light theme switching and built a custom reusable visual component set with Tailwind CSS.

EDUCATION

Amity University Online — Master of Computer Applications (MCA), Cybersecurity	Jul 2026 – Present
DAV College, Amritsar — Bachelor of Computer Applications (BCA)	Oct 2022 – Jul 2025
DAV International School, Amritsar — Senior Secondary (12th Grade)	Completed 2022

CERTIFICATIONS

Artificial Intelligence and Machine Learning Certificate — MITS Academy (Jul 2025 – Dec 2025)
